

# Precision CNC Machining & Metal Fabrication

**POWER MACHINED COMPONENTS** specializes in metal fabrication and the manufacturing of high quality precision machined parts. PMC provides cost effective machining services to fit all your business needs, from prototype to production.

No matter the project scale, PMC will offer constant support to get your product to the market in the most cost effective method.

## CAPABILITIES

### PRECISION MACHINING:

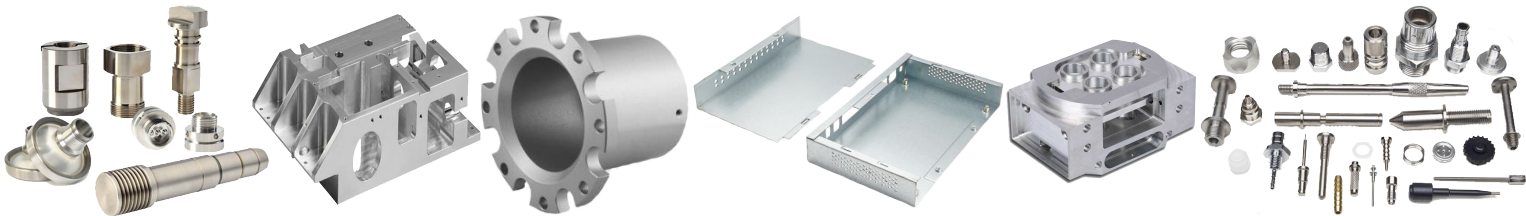

- CNC Milling & Turning
  - Metal Fabrication
    - Laser Cutting
  - Bending & Forming
    - Profile Bending
- Swiss CNC Bar Feeding
- Screw Machine Parts
- Surface Finishing C
- Coating & Painting
- All General Machining to ISO

### MATERIALS:

- Brass
- Alloy Steel
- Aluminum
- Carbon Steel
- Hardened Metals
- Speciality Metals
- Stainless Steel
- Various Plastics
  - Tool Steel
  - Copper

### SERVICING INDUSTRIES:

- Industrial Automation & Control
  - Packaging
  - Mining, Oil & Gas
- Construction & Architectural
- Aerospace & Military Defense
  - Medical/Hospital
- Custom Screws/Fasteners
  - Automotive
  - Tooling
- Displays & Stands

## Full Manufacturing Services

- Design & Material Advise ment
- Prototype Development
- Material Preparation

- Machine Operation Execution
- In-Process Quality Inspection
- Surface Finishing & Coating

- Full Inspection to ISO Quality
- Part Assembly
- Delivery

*What makes us unique is our competitive pricing, customer service, excellent quality & fast deliveries.*

### Corporate Head Office:

9-85 West Wilmot St, Richmond Hill, ON. L4B 1K7
